Autodrop®

The simple eye drop delivery system

OP/600/MCC/1206/7

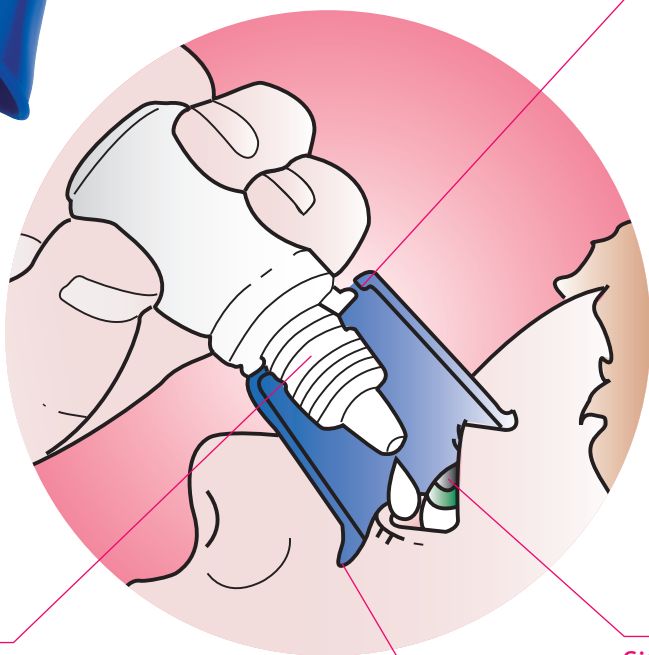

Product code:
OP6000

- Developed together with the Royal National Institute for the Blind.
- Made of easy to clean Polypropylene, reducing the risk of contamination and cross infection.

Autodrop[®] delivers the solution

Autodrop provides the simple solution to the difficult problem of eye drop instillation by delivering the dose in the right place, time after time after time.

Keyhole fitting

Eye drop bottle can be left on Autodrop for the entire course of treatment. Top of eye drop bottles can be replaced after use.

Small lip

It holds lower eyelid down and prevents blinking.

A unique pinhole

Directs gaze away from descending drops and prevents blinking.

Sits perfectly over the eye

Delivers eye drop in the exact place first time improving patient compliance.

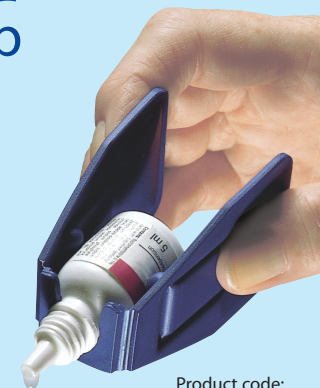

Autosqueeze[™]

The easy grip action

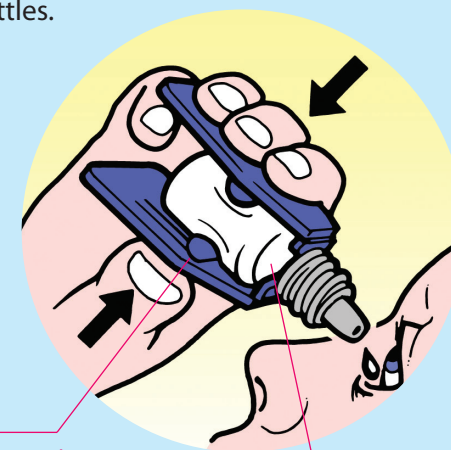

Autosqueeze has been specifically designed to assist those people who find manual dexterity a problem when it comes to eye drop application.

Its designed ribbed wings enable the user to grip and squeeze the eye drop bottle to deliver the right dose with the minimum of effort.

Autosqueeze fits most leading eye drop bottles.

Product code:
OP6100

Easy grip wings

Enables more controlled delivery of eye drop.

Clips onto the bottle neck

Universal fitting.
